

## Kaizen Steel Pty Ltd

Based in Melbourne,

Kaizen Steel Pty Ltd has been the premier destination for all engineering and fabrication needs. We offer comprehensive on-site and off-site steel fabrication services to meet our clients' specific requirements.

Our mission is to provide quality and cost-effective fabrication services that consistently exceed client expectations without compromising quality or safety.

Over time, Kaizen Steel has earned a reputation for delivering high-quality fabrications and maintenance, widely recognized throughout Melbourne as a leading service provider to the engineering, mining, and government Rail and Infrastructure.

Our annual production capacity is approximately 2,400 tonnes,  
with 2800 sqm of Workshop area  
resources available to handle higher volumes as required,  
covered storage of 1500 sqm  
open storage of 5000+ sqm  
and 1000 sqm of office area

### Project Workflow

This workflow diagram outlines the steps in a typical steel fabrication and on-site installation project undertaken by Kaizen Steel :

Competitive Quotes and Tenders by Engineers+Estimator  
Detailed Review by the Project Manager  
Production by more than 5 years of experience Boilermaker  
Quality Assurance and Reporting  
On-time Delivery of ready material  
Installed by more than 5 years of experience Rigger  
Quality Assurance and Reporting - on-site

During the manufacture and fabrication of our projects, we have systems in place to manage Quality Assurance from the start to the completion of each project.

Comprehensive reports are compiled and submitted to our clients at the project's completion, documenting each step of the process and providing assurance that the final product meets the highest quality standards, within the timespan decided.

# Kaizen Steel Pty Ltd

## Tradesman Qualifications (Macro Tests)

We will provide third-party certificates demonstrating that our tradesmen are qualified to complete fabrications according to AS/NZS 1554.1.SP.

Welding Procedure Qualification Records (WPQR) and Welding Procedure Specifications (WPS)  
A qualified third party will prepare our Welding Procedure Qualification Records. These procedures will then be followed by Welding Procedure Specifications.

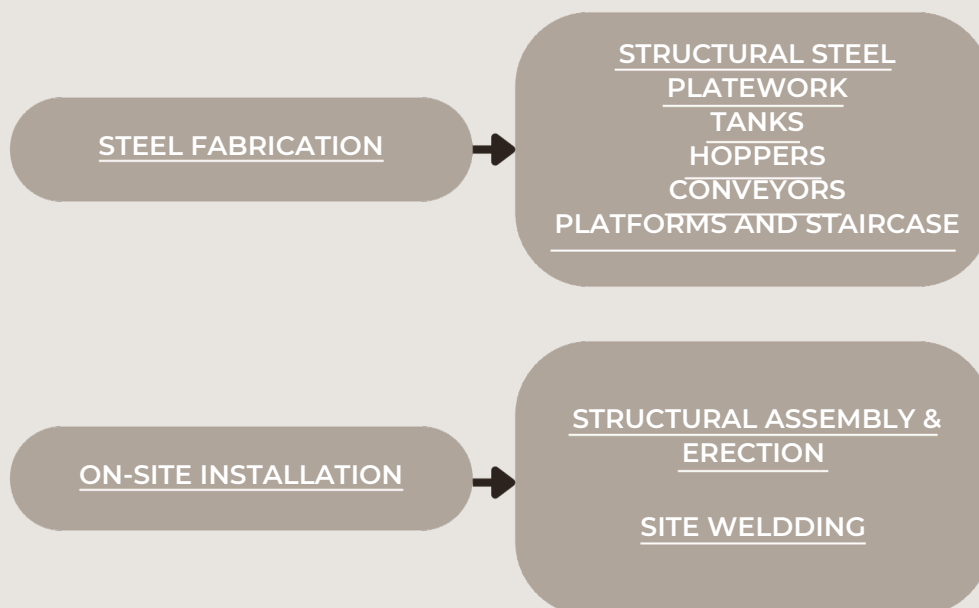

## Non-Destructive Testing (NDT)

Non-destructive testing will be performed and reported by a third party, and we will pass on their compliance reports. All reports will specify the corresponding WPS numbers.

## Steel Test Certificates

Steel Test Certificates for each order will be provided, showing that the material is Australian-made and conforms to Australian Standards.

Kaizen Steel's core business has always been Structural steel fabrication and our fully equipped workshop has the capacity to undertake massive fabrication projects. Our quality systems cover the full fabrication process from receipt of drawings through to blast, paint and final delivery, followed by compilation.
